We put the handicap swing idea on hold. We will be trying for SCBA's for the fire department if the board approves.

The board requested we research digital signs for the hall compactor and fire department. The hall would require a two-sided sign to be visible from all four directions. The fire department could have a sign mounted to the building. The compactor could also have a one-sided sign facing the road. We need three places to get bids. We received an estimate from Stewart Signs in Florida. We decided to see how many local companies there are and contact them. Darla and Doris will divide the list and contact them.

The meeting adjourned at 2:45 p.m.

The next meeting is October 27 2015 at 2 p.m.

Respectfully submitted
